WORK ON HILO BREAKWATER TO RESUME SHORTLY

(Special Star-Bulletin Correspondence)

HILO, Sept. 16.—If nothing interferes with the present arrangements, within about six weeks' time great drills will be eating their way into the quarry face opened up by the Philadelphia Breakwater Company; a never-tiring steam shovel will be gathering up the broken rock and dumping it on to the railroad trucks, when it will be hauled to the end of the breakwater and dropped into its final position. Hundreds of men will be at work, and slowly but surely the wall that is to make a harbor for Hilo will grow out across the bay until there is calm water inside.

Within a short time, also, dredging operations will commence and the big shoals that at present make navigation impossible will be blasted out and the big steamers will be able to pull right alongside the new wharf when it is built.

The Hilo Railroad Company is also pushing its extension from Waialae towards the breakwater, and as soon as this is ready for operation a start will be made getting ready for the construction of the wharf.

The machinery for the breakwater company is already here, and this end of the work is well in hand. No expense has been spared, and the latest and most efficient models of machinery have been secured.

Much time will be saved by the steam shovel, which will be put to work in the quarry and will lift the fragments of rock ready to dump into the waiting cars.

EXPERIMENT STATION NOT COMPETING WITH GROWERS

(Special Star-Bulletin Correspondence)

HILO, September 16.—That the experiment station at Glenwood is not entering into competition with local flower growers and is only trying to encourage other people to grow flowers for sale is the statement made by Manager F. A. Clowes. Just as soon as he finds that there are enough people growing flowers then he will quit selling them.

"The matter came up," he stated, "in connection with my having sold flowers to a local store and that I am doing it at the present time. It is charged that as I am running a government place I have no right to sell the product for that is entering into competition with private enterprise."

"This argument would hold good if there was any private enterprise to enter into competition against, but there is not. I agreed to sell the flowers purely that I might show some of our small farmers that they could make a little money out of flowers. Up to this time there were no flowers to be had in Hilo and the new order of things has caught on well. Just as soon, however, as I find out that some private person is growing flowers then I will stop selling them. My mission is to start people growing things."

The opening session of the Hungarian Parliament today was marked by a wild outburst of factional feeling which was prevented from becoming a free fight only through the intervention of party leaders.

An opposition member tauntingly asked a deputy of the government party whether he had his revolver with him. This raised feeling to fever heat and the members were on the point of coming to blows when Count Julius Andrássy and other leaders intervened and separated the deputies who had threatened each other. The tumult, however, continued.

If Colonel Roosevelt is elected President, he said, in a speech in Tucson today, he will call a special session of Congress immediately after his inauguration to put into effect so far as can be done by Congress, the Progressive party's platform for social and industrial legislation. The program includes a minimum wage for women, a "living wage," prohibition of child labor, regulation of hours of labor and other measures.

The opening day of army maneuvers, at Cambridge, Eng., was uneventful, except for the brilliant work of the flying corps, the biplanes disclosing all the invaders' work.

Aeroplanes and airships on both sides scouted for hours and nearly every detail that could be described was conveyed to the headquarters of the rival armies.

Gen. Charles D. Elliott, commanding the West Virginia troops in the field, arranged today to extend the martial law district to the Kanawha coal strike country. The refusal of the coal operators to accept Governor Glasscock's plan for arbitration, it was reported, was received by the striking miners with evidences of dissatisfaction.

Five boats of the Pacific torpedo flotilla made a successful endurance run off the harbor yesterday. During two hours of the run the blowers were operated and with a strong southwest wind the destroyers each made twenty-six knots an hour. The Preble, Perry, Stewart, Hull and Whipple made the run.

Two masked men held up the "Memphis Special," West-bound on the Southern Railroad, near Stevenson, Alabama, at half-past one o'clock this morning. The mail car was looted, but postal officials deny that any large amount of valuables was secured.

In a secret sitting of the ational assembly yesterday, the acting-premier, Chao Ping Chun, alluding to Mongolia, said that under present conditions China was powerless and must settle the question as best she could without forfeiting her territorial rights.

According to the Central News, the Japanese naval expansion bill is to be presented to the Diet at the end of the present year, and the financial problems in connection therewith are likely to give plenty of work to those whose duty it is to solve them.

George R. Carter, former Governor of Hawaii, arrived in San Francisco this morning on the steamship Wilhelm with his two daughters, Miss Elizabeth and Miss Phoebe, whom he is taking to the Atlantic Coast to place in school there.

Although an armed posse spent all night and morning in an effort to capture the daring young bandit who, single-handed, held up two street cars at Easton, near Burlington, in San Mateo county, no trace was found.
